BROUGHT TO YOU BY:

Where limitations are forgotten, and differences are celebrated.

Wildwood Speaks

"Kids just get to be kids doing what they do best, playing. But it will be on an equal playing field giving everyone access to enjoy the outdoors and one another. The beauty of this community is that it will create a universal acceptance opportunity that you cannot find everywhere."

-Natalie Fletcher (Early Childhood Special Education Teacher, Wildwood resident)

"When we brought Joshua home from the hospital after his accident we were hoping to continue his outdoor therapy at an accessible playground since he is now confined to a wheelchair. But that was impossible because they were all too far away. Something local to Wildwood would be a great addition to everyone in Joshua's situation."

-Aaron Luter (parent, Wildwood resident)

"This is more than just a park. It's a promise of belonging, access, and shared joy. A playground like this would allow Penny to play with others, not merely near them. This shows the City of Wildwood cares about all of its residents."

-Stephen & Kara Krawzik (parents, Wildwood residents)

"A playground can easily say accessible without truly being accessible. More times than not, we arrive with limited accessibility and I end up changing Hunter's diapers in the back of my SUV. Having an inclusive playground in the city where I grew up and chose to raise my children, would mean the world to us and to so many other families facing similar challenges."

-Chelsea Belyew (parent, Wildwood resident)

"Inclusive playgrounds ensure that all children, regardless of their abilities, can play, learn and grow together. There are so many disabilities, including those that can't be seen, that keep children from enjoying playgrounds out in the community."

-Kathy Larocco (Early Childhood Special Education Teacher, Wildwood resident)

The Town Center Village Green Vision

"Where the 'wilds' of Wildwood meet the Town Center, the Village Green offers something for everyone and a place where nature and community can come together."

The Village Green is more than just a park. This incredibly special place was designed for the community by its residents, to be a central gathering space for everything from large City events to a family picnic. It has always been intended to be a place for everyone.

The Village Green Playground

The addition of this all-inclusive playground truly makes Village Green a place for everyone. It's a vision for a better, more connected community. This park will not only provide Wildwood residents, but the whole of St. Louis region, with a universally accessible and inclusive play space where children, families, and individuals of all ages, backgrounds, and ability levels can come together to play, grow, and form community.

This vibrant, thoughtfully designed environment will promote intergenerational interaction and foster empathy, understanding, and shared joy. Whether climbing, swinging, rolling, or imagining, every visitor will find opportunities for exploration, creativity, and meaningful connection.

An inclusive playground is a vital investment in the health, well being, and unity of a community. It acts as a social equalizer, offering every child and adult the dignity of access, the right to play, and the chance to be seen and valued. By championing inclusion, the Village Green Inclusive Playground stands as a beacon of respect, compassion, and community pride — proving that when we design for everyone, we strengthen everyone. The Town Center Village Green vision is more than just a park. This incredibly special place was designed for the community by its residents, to be a central gathering space for everything from large City events to a family picnic. It has always been intended to be a place for everyone.

**The Village Green playground - a place where
limitations will be forgotten and differences
celebrated!**

Why do playgrounds matter?

Play is a critical part of the social, emotional, cognitive and physical development of every child.

Unfortunately, the vast majority of playgrounds deny children with disabilities and critical illnesses the opportunity for exercise, entertainment and social interactions which other children enjoy. In fact, only a small percentage of fully accessible playgrounds exist within our nation and these are insufficient to serve 43 million Americans with disabilities.

An **Inclusive Playground** is specifically designed to remove physical and social barriers so ALL children, with and without disabilities and/or critical illnesses, can play side by side with their peers and families.

Who is Unlimited Play?

Unlimited Play is an award winning 501(c)(3) nonprofit organization dedicated to building universally inclusive playgrounds that provide health, wellness, and the freedom of play for all children. These transformational spaces bring together kids and adults of all abilities to play, connect, and learn from one another.

As a recognized leader in inclusive play, Unlimited Play provides expert guidance in planning, designing, and building playgrounds where children of all abilities can play side by side. Our playgrounds foster dignity, respect, and understanding among children of all backgrounds and abilities, creating stronger, more connected communities.

In 2016, Unlimited Play formed a national partnership with Little Tikes Commercial to expand their reach and bring the magic of outdoor play to children of all abilities across the country.

**Join us on this journey to build a universally
inclusive playground.**

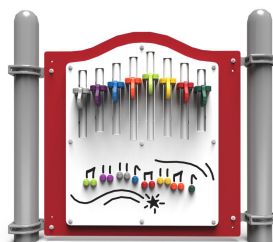

Your generous support will enable ALL children and caregivers of all abilities the opportunity to experience the joys and benefits of play. This fully inclusive playground will truly impact all who come here.
